

Status of Five Bond Issues Shown in Official Report

In a report made public this week, the Palm Springs city government explains what public improvements have been made with proceeds of the \$950,000 bond issue voted on April 26, 1949—and what work still remains to be done. Of the \$951,529 which the city has appropriated for the five classifications of improvements specified in the bond issue, the city has spent (or contracted for) \$443,818, leaving a balance in the bond fund of \$507,711. In addition to bond money spent for improvements at the Polo Grounds, the city appropriated \$75,000 from the "capital outlay" fund for this purpose.

Here is the present status of the various bond funds:

No. 1—Park and recreational facilities, including grand stand and ring for rodeos, horse shows; recreational and service buildings, baseball and softball diamonds; acquisition of property and facilities for a city park, fixtures, equipment, etc. Bonds voted \$490,000.
APPROPRIATED \$490,789 . . . SPENT \$333,441 . . . BALANCE \$157,348.

All of the recreational improvements made have been at the Polo Grounds; the baseball stadium with grandstand, scoreboard, ball diamond and proportionate share of improving grounds cost about \$200,000; the horse arena with its grandstand, portable bleachers, paddocks, chutes, fencing, concession and rest room building, public address system and proportionate share of improving grounds cost about \$165,000; the auditorium which included rebuilding the old skating rink, equipping and furnishing the building, and a proportionate share of ground improvements cost about \$43,000. (As noted above, the city appropriated \$75,000 from the capital outlay fund and spent it on improvements at the Polo Grounds—making a total of

\$408,000.) The council has stated that it plans to spend most of the \$157,348 balance in this fund on the North End park. Delay in this improvement was occasioned, the council explains, until a clear title to the property could be obtained.

No. 2—Fire protection facilities, including a new fire station, apparatus, etc. Bonds voted \$150,000.
APPROPRIATED \$150,241 . . . Spent \$19,297 . . . Balance \$130,944.

A fire truck costing \$17,500 has been purchased, some hydrants have been installed and the balance was spent for engineering and professional services. Plans are now complete for a new fire station at southeast corner of the Polo Grounds.

No. 3—Opening and widening of streets: widening Indian Avenue from Alejo road to Ramon road and opening of McCallum Way from Sunrise to Indian Ave. Bonds voted \$185,000.
APPROPRIATED \$185,298 . . . Spent \$695 . . . Balance \$184,603.

The only amount spent from this fund is for engineering and professional services. The reason given by the council for failure to get work started on these improvements is inability to get right-of-way agreements with the Indians. The city has also been hampered, it is stated, by failure to get the cooperation of the Department of Interior. The council is unable to give any assurance as to when this street widening and opening work will be done.

No. 4—Planting of trees along Palm Canyon Drive and installation of lights on

Palm Canyon Drive from Alejo Road to Ramon Road. Bonds voted \$105,000.
APPROPRIATED \$105,169 . . . SPENT \$73,505 . . . BALANCE \$31,664.

This was one of the first improvements. The tree program was completed last spring with the planting of palm trees along Palm Canyon at a cost of \$26,650 and the installation of watering facilities and conduit for lighting fixtures at a cost of \$46,500. Actual installation of the lights has awaited determination of the most suitable fixtures. Several samples have been erected and the council is expected to let the contract for fixtures in the next two weeks. It is estimated that the cost of the lights will be a little less than the balance in this fund.

No. 5—Public rest rooms, equipment, facilities, etc. Bonds voted \$20,000.
APPROPRIATED \$20,032 . . . SPENT \$16,880 . . . BALANCE \$3,152.

Work is about completed on the rest rooms which have been built in front of the fire station. Fire apparatus now has an entrance in the rear of the building, considered more suitable.

In discussing the improvements councilmen pointed out that it would cost more and not be practical had they started all of the improvements at once. Delays in the street improvements and development have been unavoidable, it was stated. These answers were made in response to criticism that the projects have been too slow in development.

Mayor Farrell pointed out that it is costing the city only 1 1/4 percent on the unpaid balance because the city is receiving 1 percent interest on these funds. It would not have been possible to get the low interest rate of 2 1/4 percent on the bonds unless all of them were placed on the market at one time, he said.

Strikes, Pressure Groups Discussed By Coordinators

Mayor's Council Meets in First Summer Session With Large Attendance to Talk Over Problems of Importance to Village

Mayor Charles Farrell's first summer session of the Co-ordinating Council Tuesday was attended by heads of 27 Village organizations, almost as many as are present during winter sessions.

The meeting at the Chi Chi with the mayor handling the gavel, heard discussions of city business, were warned that a city-wide strike may be called against all businesses in Palm Springs by at least two unions during the 1950-51 season and listened to preliminary plans for a campaign to create two supervisory districts out of present district four, involving a realignment of the other four districts into three.

MUCH OF THE MEETING was consumed in finding ways and means of sifting claims of persons who represent themselves as members of large organizations seeking political favors from the city government. Consensus of opinion was that such persons should file with either the Chamber of Commerce or City Council a list of their membership or in failing to do so, should only be given recognition as an individual.

Frank Bogert, general manager of the Thunderbird Ranch Country Club, informed those present that he has been warned by union leaders that a widespread strike against hotels, restaurants and mercantile establishments operating in the

Village would be launched this fall.

HARRY HARPER, representing the Circus Association initiated discussion relating to the establishment of two supervisory districts out of the present Fourth district, coupled with the abolishment or absorption of another district in the county. He warned that the idea was only in its early stages and a caucus of leaders in the various communities involved would have to be held in order to lay campaign plans.

Expected debate on the pending council vote on the 1950-51 city operating budget failed to materialize. Foster S. Simonsen and Horace Pendry, members of the Property Taxpayers Committee for Economy in Government invited by Mayor Farrell to attend the meeting were not present. Simonsen is ill in Los Angeles.

Second summer session of the Mayor's Coordinating Council will be called in 30 days, Mayor Farrell said. The actual date will be revealed later.

COUNCIL TO FIND OUT TO WHOM IT IS LISTENING

Next time any person stands up to address city council and designates himself as the representative of the "Curb Stone Sitters of America," he will have to submit a list of the organization's members.

This floor policy was unanimously adopted by council Wednesday afternoon on the suggestion of Councilman Jerry Nathanson.

"This policy doesn't mean," declared Nathanson, "that the floor will be barred to any individual citizen or to representatives of bona fide organizations. 'All we will want to know,' added Mayor Charles Farrell, "is if the person addressing the council represents a large number of persons or just one or two individuals."

It was declared however, that no legal means would be used or could be used, to compel anyone to reveal the number of members in any organization.

"But it would help the council in its deliberations and consideration of problems if the person seeking assistance or favors from the city council would state the number of citizens he or she represents," declared Mayor Farrell.

"That depends on the good citizens of Palm Springs who usually come through with the wherewithal for the melons, pop and other items that go into giving the kids the biggest stomach-ache of the year," Patridge said the fund was

being accumulated slowly and that any who felt so inclined need only call him and he'll be glad to put them down as a sponsor. His number is 3402.

The club was formed on July 19, 1945, by Patridge to provide recreation for the kids of town and since then the club has acquired a club house and many other items through the interest of the Village.

It has played a big part in solving juvenile problems, according to Chief of Police A. G. Kettmann.

Council to Get Civil Service Petition Soon

More Villagers Join In Move as Papers Prepared by Ruskin

The plan to create a civil service set-up for city employees was gaining momentum in the Village this week.

Roster of names comprising a committee for the institution of some form of civil service for city employees in Palm Springs has been growing daily according to Saul Ruskin, local attorney.

He announced yesterday that a formal petition for Village advocates of civil service is in the process of being prepared and will be submitted to city council soon.

CONSENSUS among those who are endorsing civil service is that such a system would tend to create greater efficiency among city employees and would attract applications for employment from expert workers for various city departments.

Sought most of all by city employees is the assurance that they will have a job no matter what political changes may occur in the conduct of Village affairs.

Pointed out, too, was that civil service, if and when adopted by a city, does not guarantee a permanent job to employees who are inefficient or insubordinate to department heads or the public.

ADDITIONAL VILLAGERS who this week announced that they are endorsing civil service are: John Arthur Connors, Herbert Burns, Jerry Sanborn, John Connell, Edwards Hawkins, Marvin Fritz, Charles Chamberlain, Charley LaRue, George Derbis, Bill Johnson, Red Watson and Arthur Greenfield.

52 Fire Plugs Sought by City

City Council in session Wednesday ordered immediate advertisement of bids for the purchase and construction of 52 new fire hydrants at an approximate cost of \$15,000.

The action was taken to forestall a possible shortage of much needed material, plans for which have long been made.

Two License Notices Passed Unopposed

City Council Wednesday afternoon failed to protest the application of Nona B. Mills for a general off-sale liquor license at Mills Liquor Store. She is the executrix of her husband's estate.

Unopposed, too, was the application of J. Paul Farr for an off-sale beer and wine license at 464 North Palm Canyon.

Annual Watermelon Feast Waits Citizens' Participation

Last Wednesday was the fifth birthday of Palm Springs Boys' club and Frank Partridge, founder and director, said this week the annual watermelon feast will be held to celebrate the event only.

"That depends on the good citizens of Palm Springs who usually come through with the wherewithal for the melons, pop and other items that go into giving the kids the biggest stomach-ache of the year," Patridge said the fund was

City Votes \$1500 to Aid Finance Pool

City council in session Wednesday afternoon voted to pay the Unified School District \$1500 against a three month summer operating deficit of the high school swimming pool expected to total \$3,221.

Dr. A. G. Hoff, superintendent of the Unified School district had asked that the city pay \$2,000 of the deficit, or 50 percent of the operating loss originally expected to be around \$4,000.

It was learned also that attendance at the swimming pool was below the same period for last year with a total of 106.7 persons per day using the swimming facilities provided by the city at the high school.

Predict 43c Increase in County Rate

As things stand now, property owners in Riverside county will pay \$1.93 per \$100 assessed valuation in taxes during the 1950-51 fiscal year. This is 43 cents higher than the rate last fiscal year and represents a 29 percent rise.

The computations were released by Auditor Ray Hicks this week. Two weeks ago he said the rate might reach \$2.03 but the county budget has been trimmed since then.

The rate is computed on an assessment base of \$220,634,560. The assessment base is the total valuation of property in the county, as decided by County Assessor Frank Burchfield.

The tax rate isn't final. The county supervisors can change it after a public hearing they have set for Aug. 14.

The total budget as of now is \$15,263,745. State grants, Federal grants, balances left over from last year's budget, and miscellaneous sources will provide \$10,900,366. That leaves \$4,363,379 to be raised from county property taxes.

The assessment base this year is only slightly higher than last year's, which was about \$219,000,000.

Await Final Gov't Reply On Hospital

Officials of the Palm Springs Desert Hospital were marking time this week awaiting word from the government on their offer to purchase the former El Mirador Hotel.

Last Thursday a committee representing the hospital district headed by Kenneth Kirk, president of the institution and John Arthur Connors, prexy of the Palm Springs Community Hospital met with a government official and made an offer for the purchase of the former hotel property.

Hearing Cancelled

Expected action by city council in containing the trailer area within presently zoned boundaries never took place at city council session Wednesday afternoon.

The council abandoned action when it was learned that an applicant for a zone variance had withdrawn his application.

Board Adopts City Budget Of \$660,740

Final Action Taken By City Councilmen At Quiet Session

Council Wednesday approved the budget for 1950-51 without fanfare and with none of the opposition which characterized previous budget hearings.

Grand total of the budget is \$660,740 compared with a total budget of \$634,246 for the 1949-50 year. Actual expenses for the last year, however, was \$533,766.84. City Manager Russell Rink's figures showed.

THE COST OF OPERATING the various departments of the city for the new fiscal year including interest payments of bonded indebtedness, maintenance of street trees, upkeep of the Polo Grounds, the Wellwood Murray Library, Airport, advertising and publicity for the city, is estimated at \$529,451 as compared to an estimated amount of \$495,496 for the fiscal year of 1949-50. The original budget estimate for the latter period was originally fixed as \$537,925.

An estimated cost of \$4,095 for street trees made its first appearance in the city budget passed by council Wednesday.

CITY MANAGER Russell Rink, in introducing the budget prefaced his remarks with the statement that:

"The budget as it stands now is completely balanced and within the estimated expected revenue of the city."

LESS SPECIAL FUNDS to be deducted from the grand total of all expenditures of \$660,740, including purchase of parking meters, payment for street maintenance, public library, airport operation, advertising and publicity, transfer of funds to the capital outlay fund and bonded interest and redemption of bonds, the total general operating fund as shown in the budget amounts to \$461,870. That figure compares with a total estimate for the fiscal year of 1949-50 of \$401,897 and an actual cost of \$397,489 for the year of 1948-49.

This is the Cat That Came Back

Cats have been tabbed by experts as particular about the place they decide to call home.

Be that as it may, something of a record was established here the other day when Lucifer, a tabby belonging to a client of the Palm Springs Small Animal Hospital returned two hours after being taken home begging for re-admission.

The attendant at Dr. O. B. McRory's hospital said it was the oddest incident involving a cat he has ever witnessed.

August 2 Date for Hearing on 1950-51 School Budget

Public hearing on the budget of Palm Springs Unified School district for the 1950-51 year will be held August 2 at the district office, Francis S. Stevens school, Superintendent A. G. Hoff announced this week.

The meet a week from next Wednesday will start at 2:30 p.m. and the public is urged to attend. In recent years school budget hearings have been conducted before almost empty benches.

Property Owners Share In City Cost, \$344,555

Council Renews Contract With Chamber to Publicize Village During Coming Year

Palm Springs Chamber of Commerce will act as the advertising and publicity agent for the City of Palm Springs for the fiscal year of 1950-51.

That action taken by city council in session Wednesday afternoon is merely a renewal of a similar contract which has been in effect for the past two years.

In a separate resolution passed by council, \$29,500 will be earmarked for use by the Chamber to be spent for advertising purposes—that is, to tell the world that Palm Springs is the world's outstanding winter desert resort.

Cost of Summer Recreation Blow To City Treasury

The city's treasury is creaking under the heavy financial hand of buying softballs and paying for lights at the local softball diamond.

A plan referred to an all committee meeting of council for further study involves an admission charge of 9 cents for children and 17 cents for adults plus tax, to pay for the softballs used and to defray all or a portion of the expense in the operating of the electric flood lights.

City Manager Russell Rink told councilmen that the cost of buying softballs is making him "gasp for breath."

"I had to order a \$100 worth of softballs the other day," declared the city manager.

On the other hand it was learned that the passing of a hat seeking collections from spectators to help defray expenses of the various teams of the league "is embarrassing, to say the least," declared one councilman.

Postpone Action On M-1 Zone in Residential Area

Re-zoning of the area around the sewage disposal plant from an R-1 and R-3 zone to M-1 originally objected to by residents in the Vista del Cielo tract was referred for further study to the city council's committee of the whole, when the matter came up for action at Wednesday's council meeting.

Action on the re-zoning plan initiated by the planning commission almost two months ago met with opposition by residents in the area who feared that the sewage plant area would be extended and that manufacturing plants would spring up in that section of the city now designated as a residential zone.

Public hearing on the re-zoning plan called at 4 p.m. Wednesday, found only two or three residents present in the council chamber who objected to the proposed action.

TO CARRY ON the various departments of the city other than the library, \$224,190.

Provide and maintain parks, music and for advertising purposes, \$29,500.

For bonds, authorized at the special election held April 26, 1949, to pay annual interest and principal coming due, before the proceeds of a tax levied at the time for making the next general tax levy can be made available for the payment of such principal, \$75,289.

Tennis Club Lessees Ask Four Million

With Mr. and Mrs. Austin G. McManus, founders and builders of the Palm Springs Tennis Club in the east and not expected to return for at least a week or ten days, no comment was forthcoming this week on the \$4,299,500 damage suit filed against them by Vincent Marco on behalf of the corporation which last fall leased the club.

Lucien Shaw, attorney representing Mr. and Mrs. McManus, said that there would be no comment until they had been served with legal papers in the case and had a chance to study Marco's claims.

SUIT WAS FILED last Friday by Marco, president of the Palm Springs Tennis Club corporation, and set forth several instances in which the corporation claimed it had been damaged to the extent asked.

Marco said the corporation has been running the club since 1946 and has spent \$500,000 in improvements. Last November, the complaint set forth, the club was leased to the corporation by Mr. and Mrs. McManus for a term of 25 years.

The complaint added that early this year the club ran into financial difficulties and offered to surrender the premises to Mrs. McManus. This offer was refused, the corporation said, and an agreement was made whereby the club would have until May 5 to raise the needed money.

BUT ON APRIL 24, Marco charged, Mrs. McManus filed a suit for unlawful detainer in superior court, obtained a writ of possession, filed an attachment, had the corporation dispossessed and placed a custodian in charge.

All this was done, the complaint stated, just as the corporation had raised \$500,000 to keep the club operating.

Other causes for action cited in the complaint were that Mrs. McManus had taken over the club's name, sought to entice away its members and had written letters telling them not to pay the bills owed the corporation.

Retail Business Up in County

Business is better in the county according to reports issued by the state board of equalization which said the first three months of 1950 showed a 2.59 per cent increase in retail trade.

The state 3 per cent sales tax collected during that period was \$1,011,826. The increase was 23 per cent over the sum paid in 1949 but, more of the increase was credited to a hike in the sales tax from 2 1/2 per cent to 3 per cent during the year.

Friend Borrows Car Then Goes to Jail

Donna Mae Williams won't sign a complaint against her friend, Willie Baker who borrowed her automobile one day last week and failed to bring it back within 24 hours as he had promised her.

When Miss Williams complained to police they told her that Baker had driven her car to Indio where he got into a gambling game just before police descended on the players.

Baker was in jail, they told her, and couldn't bring back the car.

Hunting Licenses Are Now on Sale

With the opening of the deer season, August 7, only two and a half weeks away, hunters were reminded this week by the state fish and game commission that the new 1950-51 hunting licenses are on sale.

The permits are required for all types of hunting.

IN THE MAKING—Bulldozers, tractors, and men are hard at work building the first 18-hole golf course in the Palm Springs resort area. The pick-and-shovel gang above are leveling the ground for the golf course of the Thunderbird Ranch Country Club expected to be finished about January 1, 1951.

Legion Delegates At Beach Caucus

Plans for the August Department of California convention of the American Legion were discussed at a 21st District caucus at Huntington Beach Sunday with several members of Owen B. Coffman Post, 319, in attendance.

Commander Charles LaRue of the local post, headed the group.

Delegates elected to the state department session next month made up the local group to attend the caucus. They are Commander LaRue, Hilton McCabe, Ray Hiller, John Follansbee, Wilbur Davis, Charles St. George and Dave Dunsforth.

Escape Uninjured

Two men escaped injury although their automobiles were damaged when the cars met almost head-on on Tahquitz bridge on South Palm Canyon drive Friday.

Lloyd H. Underhill, border officer, was driving one car and Lawrence Hughes, San Diego, the other.

Cathedral City's Main Street To be Paved its Full Width

At a special meeting of Cathedral City Chamber of Commerce at Cathedral City Town Hall this week, bids were opened for construction of curbing on both sides of Broadway (Highway 111) through the village.

This action marks the culmination of many months of planning for the paving of Broadway from curb to curb, by a committee headed by W. R. Hillery and including Leslie Kelley, chamber of commerce president, Robert Sherrill, secretary of the chamber, Ben Scott, James Henderson, Gus Holm, Frank Naley, Paul Clark, Edwin Biles, Arch Linkletter, Claude Cobb and Dr. J. J. Almayce.

THE COMMITTEE was able to obtain the cooperation of the state and county whereby the cost of paving will be met by state and county highway funds and the work done by the county under the supervision of A. C. Keith, county surveyor and road commissioner.

This is provided that the curbs be paid for by the individual property owners fronting Broadway. All but a few individuals

Construction Work Starts On Thunderbird Club Links

Actual construction of the 18-hole Thunderbird Ranch Country Club golf links got under way this week, with the first golfer expected to tee-off sometime around January 1.

Bulldozers, tractors and a force of pick-and-shovel men are hard at work preparing the vast amount of land necessary for the course, according to Frank Bogert, general manager and secretary of the Thunderbird Ranch Country Club.

Chief Kettmann Back on Job

Police Chief A. G. Kettmann returned to his desk at the Palm Springs police department Wednesday after a six week vacation.

The chief, much rested and declaring himself all set for another busy year, spent much of the time while gone at Lake Tahoe.

Captain Orest Johnson served as acting chief of police during his absence.

Dr. Hoff to Teach At U. of Redlands

On the staff of University of Redlands second summer school session July 31 to September 1 will be Dr. A. G. Hoff, superintendent of Palm Springs Unified School district.

Dr. Hoff will conduct classes in science teaching in secondary schools, will head a seminar on educational problems and lead in discussions on school finance and business administration.

Dr. Hoff was on the Redlands University staff before coming to Palm Springs to assume charge of the schools in the local district.

to be signed this week and work will start immediately, as it is expected to have the entire job completed by the opening of the tourist season, October 1st.

have already deposited funds for their share of the curbing. As the curbing must all be installed before the paving is done, the chamber of commerce is underwriting the payments of a few whom it has been unable to contact, in the belief that they will be eager to reimburse the chamber for their share in this great civic improvement.

INCIDENTALLY, President Kelley said that having to advance this money drains the chamber treasury so that no money is left for the maintenance of Cathedral City's park and a deficit is in prospect on the annual payment due on the community fire hall.

"We feel" he said "that this improvement which will enhance the appearance of the main thoroughfare from which first impressions of a community are gained, that it will be of incalculable benefit to the entire village and so is worth almost any sacrifice."

The low bids which were accepted for the work was made by the local firm of Hicks and Allred. The contract is expected

Room for More In Swim Class At High School

There is still room for more in the swimming classes being conducted at Palm Springs high school pool, Dr. A. G. Hoff, superintendent of Palm Springs Unified School district, said this week.

Recreational swimming is attracting large throngs daily, he added. The summer swimming sessions are under sponsorship of the district.

Beginners classes are held from 1 to 2 p.m. daily, except Sundays. Intermediate classes from 5 to 6 and adult classes from 7 to 8 p.m.

The pool is open every day of the week from 1 p.m. to 6 p.m. and from 7 p.m. to 10 p.m.

Bus service to the pool from downtown areas was discontinued because of lack of patronage, Dr. Hoff said.

Supervisors Ask Phone Hike Data

Officials of the Pacific Telephone and Telegraph company were invited to appear before county supervisors to explain the proposed telephone rate hike, an application for which is before the state public utilities commission.

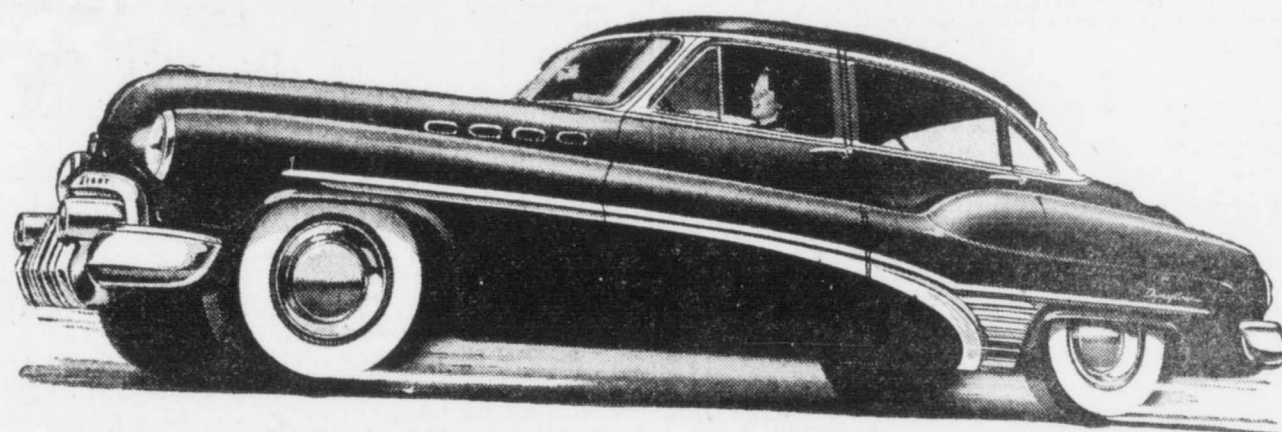

The board extended the invitation Monday while discussing a resolution protesting the boost.

The rate hearing is slated for September.

First of the Fine Cars in Value

Big Boy that parks like a midget

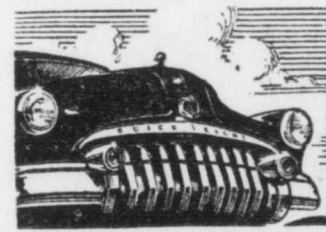

YOU look at the king-size wheelbase on this strapping Buick ROADMASTER.

You look at those long Buick-tapered fenders sweeping from bumper to "double bubble" tail beacon.

You step inside and luxuriate in legroom and hiproom and headroom generous as old-time hospitality.

You ride it—and wonder if wings were ever so soft.

You feel that big bonnetful of Fireball power whisk you from standing start to road speed with the honeyed magic of Dynaflo Drive.

FOUR-WAY FOREFRONT—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

And you tell yourself this is entirely too perfect.

All this automobile must be hard to handle, too big for your garage.

Good sir, just slide over and take this ROADMASTER's wheel.

Pick a curb space you'd ordinarily pass by, and back this Buick into it on your very first try.

Here Buick has done a neat job of reducing over-all inches while

keeping interior king-size comfort. When you wheel this whopper into your own garage, you'll be tickled pink at the room all around it.

So come on! Head for your Buick dealer's now for a tryout of a Buick ROADMASTER.

You will find it in a selection of body types, in finishes to suit a queen's taste—and at prices to make you wonder why anyone ever pays more.

Only BUICK has Dynaflo DRIVE*

and with it goes HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New V-263 engine in SUPER models.) • **NEW-PATTERN STYLING**, with MULTI-GUARD fender, taper-through fenders, "double bubble" tailgate. • **WIDE-ANGLE VISION**, close-up road view both forward and back. • **TRAFFIC-HANDY SIZE**, less over-all length for easier parking and garaging, short turning radius. • **EXTRA-WIDE SEATS** cradled between the axles. • **SOFT BUICK RIDE**, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube. • **WIDE ARRAY OF MODELS** with Body by Fisher.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Buick Roadmaster
with Dynaflo Drive

Traffic Accidents Up But Otherwise June Quiet Month

Traffic accidents were more numerous but outside of that, June was a quite month for police, Captain Orest Johnson, acting chief of police reported to City Manager Russell Rink this week.

There were four felony arrests, three for burglary and one for bad checks and five felony complaints, two for burglary, two bad checks and one grand theft. Value of property recovered by police was \$1,985.

With the decline in parking tickets, misdemeanor arrests totaled 35, 12 of which were traffic cases. There were six arrests for intoxication.

Eight traffic accidents occurred in the month in five of which injuries resulted.

Capt. Johnson said that the Junior Rifle Club under direction of Officer W. L. Jessup is going strong with many youngsters in attendance.

He also said that the department is checking about 300 homes of Villagers away for the summer months.

Planners Rest During Summer

M. J. Crawford, secretary of the Coachella Valley Advisory Planning committee, sent out notices this week that no meetings of that group will be held during July and August.

Should any emergency arise during this period, all member organizations will be advised.

Rain-Making Plan Urged By Bookman

County Counsel W. O. Mackey this week was looking up the law to see whether the county can go into the rain-making business.

And if he says it can't, the county's two representatives at Sacramento are going to be asked to make it possible—if possible.

MAX BOOKMAN, county flood control district engineer, asked directors of the district this week to spend money to make rain declaring that it is the duty of the district to keep water supplies up to par.

The district's directors, who are the five county supervisors, have asked State Senator Nelson Dilworth and Assemblyman John Babbage to start necessary legislative action. If Mackey finds they cannot spend money legally to make rain now.

BOOKMAN SAID that the plan is to seed clouds and use other rain-making devices when the natural fall is below normal.

Last rainfall season the total fall in Palm Springs was less than inch—.96 of an inch to be exact.

Two years ago Bookman spent his own money engaging an aviator, buying dry ice and seeding clouds over San Jacinto.

HE SAID that while the results were not conclusive, the experiment increased the normal fall by 15 per cent.

Earl Redwine, county counsel at the time, however, ruled that the county could not legally spend money to make rain.

Palm Springs and vicinity make up Zone 6 of the county flood control district.

Vote Water Budget

Budget of \$337,000 was adopted by directors of Coachella Valley County Water district last week. With \$320,801 on hand, it was announced \$216,198 will be raised by taxation. The rate will not be fixed until assessment figures are received. A small portion of the Village is in the district.

SAN BERNARDINO COUNTY DESERT GROUP WANTS IN RIVERSIDE COUNTY

Riverside county supervisors were considering a request today that they probably gave them much pleasure.

It came from a group of San Bernardino county residents in a district along the northern edge of Riverside county who want to get into this county.

The delegation said San Bernardino county treated them "like a stepchild" and that they could get nothing for their area from their own supervisors.

IT WAS NOT LONG ago that Riverside county supervisors heard the same argument—but directed against them. Their own county desert area said the same thing about them.

The request that the county annex about 1800 square miles of San Bernardino county territory was made Monday by a delegation which said they had the informal blessing of San Bernardino county and the backing of civic groups in the territory involved.

THE AREA IN QUESTION is 12 miles wide, north and south and 150 miles east and west. It is bounded on the west by the community of Morongo and on the east by the Colorado river. It lies along the Riverside county's northern boundary—the one between Riverside county and San Bernardino counties. The strip would take in the community of Twenty-nine Palms. The committee estimated the population of the 1800 square miles at 8000.

Supervisors told the committee to prepare its request in proper legal form. All the committee had yesterday were spoken explanations and a couple of maps with proposed boundaries roughed in.

ITS MEMBERS said they figured the district had more interest in common with Riverside county than with San Bernardino county.

Grant Bookman Raise in Salary

Supervisors Monday re-changed their minds and voted a raise in pay for Max Bookman, county flood control engineer. He will get \$650 per month now instead of \$600.

The board was sitting as directors of the county flood control district when they approved the salary hike.

Two weeks ago they voted the raise then when the ordinance making the new pay official came up last week refused to pass it. They passed it this week.

Authorize Work

On Canal Unit 7

R. V. Lloyd and company crews were awaiting the arrival of pipe to resume work on a large scale on Unit 7 of the All American Canal's lateral system. The U. S. reclamation bureau Monday authorized resumption of work with word that \$628,300 had been allotted for the work.

LAFF OF THE WEEK

"Now Take It Easy!"

Group Asks Hike In Library Fund

Supervisors, beset with demands that the budget be slashed, heard a demand Monday that more money be spent on the county library.

Representatives from many parts of the county appeared and asked that the library budget, set at \$15,000, be hiked by \$21,000.

A. C. Lake, spokesman for the delegation, said the county's per capita library cost, 34 cents, is the lowest in the state.

Supervisors said they would consider the request at the county budget hearing August 14.

With schools contributing \$10,000, the total budget of the library is \$25,000 as now fixed.

1-A Draftees All Notified by Now

If any Village young men are in line for a 1-A draft classification in the army's first call, they know it now.

Mrs. Elmer Kelley, secretary of the county's two draft boards, said that the last of the notices went into the mail last Friday night.

First notices to draftees to report for pre-induction physical examinations are not expected until the end of the month. The examinations are scheduled for August 7, when a draft pool of 3225 men will be set up to fill the first call for 600 men from the state by September 30.

Riverside county's quota is expected to be between 18 and 20 men in this first call.

Record Vacation Rush Into State Now Under Way

The greatest vacation spree in history is now on!

Don Doig, touring counselor of the Automobile Club of Southern California, made this observation this week in reporting that an all-time high of 466,074 out-of-state cars, carrying 1,226,379 passengers, arrived in California during the first six months of this year.

This tops the previous peak totals of 448,325 cars and 1,183,175 passengers set during the similar months of 1948 and surpasses last year's figures of 413,553 cars and 1,094,338 passengers.

Doig said 128,217 out-of-state cars entered the State last month, thus representing the greatest single-month influx of such visitors in history, and topping the previous month high total established in August, 1948, by approximately 5,000 autos.

In releasing these figures, the Auto Club touring official predicted that more new influx records would be set during the coming months as reports from AAA offices in the Midwest and East indicate that unprecedented numbers of motorists are planning to drive to California this year.

Date Harvest Will be Heavy

Maure Solt, head of the date advisory board, predicted Tuesday that the coming date harvest will be an excellent one. He estimated there are 28 million pounds of dates in good condition on the trees.

Trees damaged by last winter's cold spell are now back in good condition and the recent warm weather has not hurt the dates.

At Conference

Among educators attending University of Redlands conference for school administrators and supervisors last week was D. Wayland Reynolds of Palm Springs high school staff.

"Palm Springs Oldest Insurance Agency"

County Board Casts "Yes" Vote for "Whatever it is"

Elmer Dunn of Mountain Center talked county supervisors into adopting a resolution which was officially termed: "whatever it is."

The resolution put the supervisors on record as favoring the development of all the mineral resources of the county and the nation because of the war situation.

Some supervisors and County Counsel William O. Mackey said they didn't see much need for it. They said the Federal government would inevitably make all the orders necessary to mobilize the nation's mineral resources. They said it was just a waste of time to say they were for it.

BUT DUNN kept talking and finally Supervisor William Slape said: "I move we adopt this thing, whatever it is." It was so voted.

Dunn is vice-president of the Riverside area of the Western Mining Council, Inc. He said he liked to develop some tin mines himself.

County Fire Fighters Win Federal Praise

County fire fighters were praised in a letter from U. S. Forest Ranger D. R. Bauer for their work in suppressing a small but potentially dangerous forest fire at Mountain Center Sunday.

In his letter, addressed to supervisors, Bauer expressed the federal services gratitude for its efficient work.

Ask State Help To Reduce Flood Threat Near City

State engineers have been asked by Max Bookman, county flood control engineer, to survey a serious flood hazard north of the city created by the recent week-long San Geronimo fire, and to make recommendations to reduce the danger to a minimum.

Eleven thousand acres of brushland were swept by the blaze a few weeks ago.

Bookman said that a heavy rainfall in the area could wash out a water line that feeds Palm Springs from Snow Creek canyon and could rip out the main line of the Southern Pacific, destroy a state fish hatchery and sever the big pipe line that brings natural gas from Texas fields to supply much of southern California.

Trees, brush and undergrowth which normally hold rainfall on the mountain side for seepage into the ground, were burned away, Bookman said.

Hit-Run Suspect

Arrested in Village

Sought here for two days on request of Indian police, H. H. Kester was arrested Sunday and turned over to them on a hit and run charge. Howard Poe and Warren Hockenbary found the suspect.

Within a short time, Stalin must either write off the Korean adventure or intervene with Russian or Red Chinese troops. The latter course would blow the whistle for World War III. The ultimate decision is squarely up to Joseph Stalin.

Yet there are some Americans—many of them doubtless motivated by a sincere desire for peace—who, ignoring the deadly realities of the situation, profess to believe that America has a choice in the matter. Ignoring the fact that the

Knowningly or unknowingly, the appeasers are Uncle Joe's puppets. They echo the fantastic columns of the Communist People's World, which screams that the United Nations' aid to South Korea is a Wall Street war, that South Korea is really the aggressor, that black is white, that Stalin's only desire is for peace. As far as the great majority of Americans are concerned, Stalin and his American puppets as well will be judged on the basis of their actions rather than their words.—(CFS).

Apart from the misleading title, however, the urge is on to banish also the dull one. "Postal Inspector," became U.S. Mail," since every letter box would advertise it. A newspaper picture, "The Human Interest Story," was changed to "Ace in the Hole," because it was felt

Palm Desert Sunbeams

By EDITH EDDY WARD

Building at Palm Desert is going ahead with leaps and bounds. Owners of residential jobs and income property are making rapid strides toward the completion of their plans in readiness for the new desert season. Take for instance, the home of Mr. and Mrs. Charles Milliken of Los Angeles. Designed by Walter White, it will be a low, wide, ranch-type two-bedroom house divided into two wings—the master bedroom wing and the guest bedroom wing, the latter to be separated from the main portion of the house by a breezeway. All rooms will have sliding metal doors opening on to a terrace which will surround a swimming pool 18' wide by 36' long. The living room will open out on to a terrace which will become part of the living room when the sliding doors are open. The main portion of this home will be of pumice structure, in itself good insulation against desert heat. There will be evaporated air cooling and on the sides of the house exposed to the sun, the large windows will be of Solex plate glass. The floors throughout, with the exception of the kitchen and bathroom, of course, will be carpeted from wall to wall and the living room will boast a large fireplace. Radiant heating will be the means of providing warmth during cool winter evenings. A breakfast bar between the living room and kitchen will be the spot for many informal parties, the kitchen itself being a cool, well-lighted room, fully equipped with the latest electrical gadgets, including a dishwashing machine and disposal unit. Formica tops will make the working areas of the kitchen a pleasure to keep in spic and span condition.

Mhoon and Mhoon, father and son team whose building contractor offices are at Palm Desert, are filling out a contract to build a charming home in Palm Desert for R. E. Brooks of A.conda, Montana, from his own specifications. They built two lovely detached homes early this past spring which have been sold and are going to build two more for resale this coming season.

Cliff May, famous designer of modern ranch-type homes, is drawing up the plans for the home of Roy Nafziger of Los Angeles, to be built on his "ranch" lot.

Darwin and Johnson, whose offices are also at Palm Desert, are in the process of building two private homes, one for club members Mr. and Mrs. Fred Siemen of Los Angeles. Both Mr. and Mrs. Siemen love the desert so much, they have planned to make their home here. An accomplished horseman, Mr. Siemen has been seen many times riding the trails around here and has taken special interest in the training of the new colt at the Shadow Mountain Stables. According to Bill Darwin and his uncle, William Johnson, there has been a lot of inquiries in regards to building at Palm Desert and the future should be promising.

Cliff Henderson left Wednesday for his second vacation since the time Palm Desert became a reality. He has gone to Honolulu where he is staying at the Royal Hawaiian. It is his first trip to Hawaii and has been excitedly awaiting the moment when he could leave his Palm Desert business long enough to enjoy about fifteen days there. Stephen Rovey, who is manager of the Huntington hotel in Pasadena, will join

him, as he is also the manager for the Royal Hawaiian. It should be quite a vacation and no doubt Cliff will return with many elaborate ideas for the next Luau to be held at Shadow Mountain Club.

Pamela and Thorne Holmes, the favorite young couple of many Palm Desert visitors who remember them as managers of Firecliff Lodge last season, were the perfect host and hostess they always have been, when they entertained several of their friends and Shadow Mountain Club personnel last Monday in their cottage. Thorne is managing Shadow Mountain Club for the summer and doing an excellent job and Pam is the perfect manager's wife and is, in addition, a superb cook. She served a delicious dinner of creamed chicken, with plenty of good salad, creamy mashed potatoes and vegetables and toasted garlic bread, with ice cream for desert and good steaming coffee. Amongst the guests were Mr. and Mrs. William Knight, newcomers to the desert, from Vermont, Mrs. "Bobby" Knight is the sister of Don Phelps, who is at present in the east taking vacation from his duties as assistant secretary to the Palm Desert Corporation and controller of Shadow Mountain Club. Bill Knight is here as Don's assistant. Leife Erickson, Pauline Thompson, Mr. and Mrs. Don Hughes, all of Shadow Mountain Club. During the course of conversation, Thorne Holmes and Don Hughes discovered they were both in New Caledonia during the war at the same time, in late 1943 and early 1944. It was a swell party and lots of fun. No one wanted to break it up and it lasted until the wee hours.

Mr. and Mrs. S. S. Richards of Indio enjoyed an evening at the poolside this past weekend. Mrs. Richards mentioned how lovely and cool it was at the Club. Also enjoying the club over the weekend were Dr. and Mrs. Hugh Stephens and their children, Palm Springs; Dr. and Mrs. Claude M. Church, Rancho

Mrs. Cornell Now Heads Auxiliary

The executive board of Owen Coffman Unit American Legion Auxiliary met on Thursday evening July 13 at the home of Mrs. Cora M. Cornell and accepted the resignation of Mrs. Lou E. Oliver who was recently installed as president for the ensuing year. Mrs. Oliver's resignation was brought about by the fact that she and her husband have left Palm Springs. The group expressed their regrets and at the same time wished Mr. and Mrs. Oliver every success in their new location.

Following the reading of the letter of resignation Mrs. Cora M. Cornell, first vice president assumed the duties and office of president and asked those members who were on committees to retain their offices.

It was agreed that special notices will be sent to all members announcing the nomination and election of a first vice president on the first meeting of the fall season on September 19.

School aide resigns

Mrs. Nellie Frost, general elementary supervisor for the county school department, has resigned, the school office announced Saturday. It marked the second resignation from the department of key officials in a week.

Mirage, General and Mrs. G. J. Higgins from Monterey, California; Mr. and Mrs. Eugene Kincaid of Palm Village with their guests Mr. and Mrs. O'Rourke and Mr. and Mrs. Mobley of Indio; Mr. and Mrs. C. J. Cobbs and John S. Hillery of Cathedral City. Saturday night square dancing at the club is taking on. More dancers joined together last Saturday and it appears they are planning to keep it up during the remainder of the Club's summer season.

Mrs. Henderson Named on Department Education Board

Mrs. Charles S. Henderson, junior past president of Owen Coffman Unit American Legion Auxiliary will be a member of the education committee at the forthcoming annual department convention at Sacramento Aug. 13 to 16. Mrs. Marian Matthews, Twenty First district president announced this appointment at the final district meeting of the year Sunday at Huntington Beach.

Attending the meeting at the beach city from the local organization were Mrs. Cora M. Cornell, president, Miss Inah Peterson, second vice president, Mrs. Charles E. Henderson, junior past president, Mrs. Harold Lienau, department sergeant at arms, Mrs. Henry H. Menard, recording secretary and Mrs. J. J. Follansbee, delegate to convention.

The morning session was occupied by hearing reports of the work accomplished during the past year—reports which were made possible by the unselfish labor of the members. Many had worked in hospitals, several groups had worked on making articles needed by patients in the veterans hospitals. Rehabilitation work amounted to many hundreds of dollars and must have contributed much to lighten the burden of veterans still not yet able to fully provide for themselves and their families.

The child of the veterans is always the special care of the American Legion Auxiliary and the Owen Coffman Unit was among the four units given awards for their outstanding work during the past year in the child welfare program, which was carried on here under the direction of the chairman, Mrs. Arthur R. Burkland.

During the afternoon session officers for the district were elected and Mrs. Nell J. Carlson of Moreno Valley was unanimously elected president. Mrs. Carlson is well known in Palm Springs as she has visited here on many occasions.

Hicks Mark Anniversary

Mr. and Mrs. Harold Hicks marked their 19th anniversary Sunday at the La Jolla summer home of Mayor and Mrs. Charles Farrell. The Hicks are staying at Laguna Beach with their children this summer.

Mr. Hicks and Mayor Farrell were in the Village Wednesday and Thursday attending to personal business and to be present at a civic affairs meeting held at the city hall.

Stuarts on Way Back to Village

Mr. and Mrs. Sam Stuart of the Village are en route home from New York where they marked their 18th wedding anniversary by "seeing a lot of shows and by having a general good time."

They will stop over in Chicago on the westward trip and expect to be home sometime late this month.

Valentinos Head For New England

Mr. and Mrs. Charles Valentino and the latter's mother, Mrs. Laura L. Price left yesterday on a long motor tour which will circle the nation. They are going up the Atlantic coast en route to visit in New England and will return through Canada and down the Pacific coast.

They plan to return to the Village in September.

Headed Northwest

Washington, Oregon and Vancouver, B. C., are the destinations of Mr. and Mrs. Louis Moore and family of the La Varonda apartments. They left this week and expect to conclude their motor tour in September here.

Plan Summer In Carolinas

It will be a vacation in North Carolina for Mr. and Mrs. George Strebe and family who departed Wednesday for the east coast.

With their three children, Georgiana, George Jr. and Corrin, they are en route to Henderson, North Carolina, to visit Mrs. Strebe's parents.

En route the family plans to stop at Santa Fe, New Mexico to spend sometime with Carrington Wolley, son of Clarence Wolley, well known Villager. Strebe said his famous Doll House will open September 27. The family plan to return in ample time to prepare the opening.

Linus Family Off to Sierras

Mr. and Mrs. Alex Linus have closed their Casa Del Camino for the remainder of the summer and are en route today to the Sierras country.

Mr. Linus expects to do more painting in that area and also plans to get in some fishing. Later they will visit in San Francisco before returning to the Village September 10.

Return to Village

Two weeks at Idyllwild provided a pleasant summer interlude for Mr. and Mrs. Darold Resser of the Village. During the last week stay there Larry Sitter Jr. was their house guest.

As citizens and voters of Palm Springs, interested in its efficient operation, well-being and the protection of our public employees, we should have a

CIVIL SERVICE SYSTEM

It will mean:

1. Stabilization of good workers in present jobs.
2. Attract a higher type of candidate for city employment.
3. Will produce greater efficiency among city employees.
4. Provide protection against possible political SPOILS SYSTEM.
5. Require that all applicants meet reasonable standards of health, education and aptitude. (There are no standards at this time as to health and education. No medical examination against physical defects before employment.)

How he saved on taxes... with estate planning

Mr. Jones' Will provided that his wife would inherit his entire estate in the event of his death... and that their children should inherit from her. In reviewing his Will recently with his attorney, Mr. Jones found that his property would be subjected to estate taxes twice—once when he died and again at his wife's death. He discovered that these taxes would make substantial inroads against his estate.

Mr. Jones' attorney explained how through the use of a trust, property once taxed, would not be taxed again on passing to his children. His Will was redrawn. Bank of America was named as Trustee under Mr. Jones' Will to carry this tax saving estate plan into effect.

If you have an estate problem, a Bank of America trust officer will be pleased to discuss with you and your attorney the wisest way to plan your estate... to provide best for your family's future.

Woman Asks \$5,500 Balm For Injuries

City of Palm Springs last week was made defendant in a suit asking \$5,500 as result of a foul tip during a baseball game at Polo Grounds March 5.

It was on the occasion of the inauguration of the grounds and among the spectators was Mrs. Lily Waring. The foul ball which went into the stands struck her in the face, she said.

As a result, she has a suit on file in superior court at Riverside today asking \$5,500 from the city of Palm Springs.

Lily Waring joined in the suit against the city with her.

The game she was watching was the one between Seattle and San Francisco which inaugurated the Polo Grounds.

Saul Ruskin, local attorney, filed the suit on behalf of the plaintiff last Friday.

PUBLISHER'S CORNER

(Starts on Page One)

our extravagant standard of living and carry on a global war. Instead of hoarding we should be conserving everything we have. Instead of worrying about whether we'll have enough coffee a year from now we should be concerned about whether this nation will be able to produce enough soon enough to preserve our way of life against the forces of Communism. We can't afford to wait until we're half beaten to wake up and realize that this will be a struggle—if and when it comes—in which EVERY liberty-loving American must take part—must make any sacrifice necessary to win. Now is the time to start—not next month or next winter. Each one of us should take the attitude that the outcome of the entire struggle depended upon us alone. No matter how small the part you play, you can be helpful in many ways.

The sudden attack at Pearl Harbor created a united America almost overnight. It took a long time to fight our way back but it was a united nation that turned the tide. Soon after the fighting ceased we went back to normal pursuits and left the cold war fighting to the State Department. The opening of hostilities wasn't much of a shock to our people—although it should have been to the State Department. That pull-together spirit so manifest after Pearl Harbor doesn't exist now. Hoarding indicates that people are awakened only to the extent of their own selfishness.

An atom bomb dropped on one of our cities would re-unite America in a hurry. Let us hope and pray that it never comes. Let us hope that this nation will become awakened and united by the awareness of the danger that faces us. May we catch some of the spirit of our men who are fighting against such terrific odds in miserable Korea. Reading about the sacrifices of these men should make the hoarders feel like dirty dogs.

From Page One—MORE ABOUT

THIS SIDE OF THE SUN

chattering in the morning while the bike-riding (deleted) is still asleep.

PARDON ME, just a minute... Found some notes that say "add col" meaning something to be appended to the column... Now, if it says "add" it means there was something ahead of it... That's what I'm trying to find... Oh, yes, here it is... Just where I left it except Bill Rashall had dumped a lot of stuff on top of it... He's neat like I am... Anyway, one note has to do with politics... Seems not so long ago the Good Government League met in Banning... Beaumont people didn't like what they did... So in Beaumont they said "No to Good Government"... They're forming a BETTER government league... Presume that down in Indio they'll take it up and come out with a BEST government league.

THE WAY PEOPLE are doing things about the weather now instead of just talking about it is wonderful... Some savant said the other day that it might be possible to start a rain storm by just shooting a dry ice pellet into a cloud with a pistol... Fellow could make his own rain that way... Save watering the lawn... But there are drawbacks... His neighbor might have just washed his car... Be great for lawyers, too. Think of the lawsuits that could ensue from someone who liked rain with a neighbor who preferred it hot and dry.

ALL YEAR CLUB is pointing with pride to the recent Gallup poll which indicates California is the preference of most people with a yen for vacations... Hawaii was second and Florida third... Those two places will probably come back with some nasty references to the accuracy of the poll in a recent presidential election... Out here on the desert we have been saying for some time that over at Riverside the supervisors don't know we exist and have been yelling "new county"... Over at Twentynine Palms, more or less, Joshua, then SOB COMMUNISTS! I'll be a stepchild... They want to join Riverside

county... Something's wrong somewhere.

SPEAKING OF THAT reminds me... Harry Oliver, who has been so busy being interviewed by national magazines that he has been sort of neglecting me, scored twice this week... He's getting prosperous... Spent money to send a special delivery letter and also make a long distance call... The telephone call was about S. B. county wanting to join us... The Desert Sun and the Indio Date Palm should take credit for that," he said. "They broke the story about the new road that's being agitated to join this desert with Joshua Monument and Twentynine Palms... That proposed extension of Highway 74 making it a road from Capistrano beach to Joshua monument... That what influenced the 'San Bernardino people'... The letter had to do with what he called: 'Hell's Ten Miles'... Highway 99 from Garnet to Thousand Palms... Worst road for accidents in the state, he avers.

ALSO BREAKING into this column again is Arthur Bliss Knickerbocker... He got his name in Los Angeles papers which run tip sheets on radio quiz programs... Conky suggested Glenn McCarthy as the phantom voice on the Sing It Again program... His wife, Vivian, suggested Ronald Reagan, once a cop who later made a fortune in oil in Texas... From the reports coming in of accidents happening to Villagers while on vacation, would suggest they just stay home... It's nice in Palm Springs providing you have a cooler and don't have to work in the sun... It's nice to work on The Sun, however.

MAYBE THAT last crack will help me with my vacation program.

Value Corn Crop In Desert Area At Two Millions

Coachella valley corn growers estimated that the all-time high record of 674,000 crates of corn which they wound up the 1950 season brought in an estimated \$2,000,000 to the industry.

The figure compares with 532,000 packed as of this time last year which brought growers an estimated \$1,500,000.

TREMENDOUS INCREASE in returns on corn this season was due to the high quality of the product as well as the continued demand right through the corn season.

With the exception of a short time after the start of the harvest, when prices slid down to \$2 a crate, ranchers figured they received \$3 per crate throughout the season.

APPROXIMATELY 6000 acres in the valley were planted in corn this year, some being land which had formerly been used to raise cotton until the government's curtailment order this year cut down its production.

It is anticipated that next year even more acreage in the valley will be planted to corn in view of the exceptionally good returns the product brought for the season just closed.

Hoot and Holler Party at Legion Hall Tomorrow

"Hoot and holler for a half-a-dollar."

That treat, if you want to hoot and holler, eat barbecued ribs, dance and enjoy entertainment is promised for all those who attend the affair sponsored by the American Legion Saturday night at 7:30 p.m.

"Archie Long and his Music" has been hired by the Owen Coffman Post of the Legion to provide the dance music for the occasion. That four piece band will be providing music for the veteran's organization at many of their functions in the past.

The barbecued feast will take place on the patio of the Memorial Hall with music provided for dancing at the same time. At 10 p.m. according to plan, the scene will shift to the inside auditorium where the dancing will continue interspersed with entertainment, it was announced.

Casual Aire Set For Summer

Latest styles in a shipment of bras, sun and play suits for midday now fills the shelves of the Casual Aire Shop, according to an announcement by Bob and Jean Morris, proprietors and managers of the establishment.

Growing awareness of the ever increasing demand for "breezy" attire by the women folk of the Village prompted the Morrises to order a large assortment of shorts, sun and play suits.

The fashion originally got its impetus as the style for midday right here in Palm Springs, it was pointed out.

"What affect the president's message will have on women's clothing is not known yet," declared Mr. and Mrs. Morris. "However, it was noticed that a rush to buy clothes during the past two weeks has become evident."

Play Centers at Schools Popular

Summer recreation centers established by Palm Springs Unified School District at Frances Stevens school and Cahulla school continued to be well patronized, Dr. A. G. Hoff, superintendent, said this week. They will continue until September.

At Stevens school, Mrs. Alberta Babcock is conducting arts and crafts sessions and Douglas Doyle is supervising the games. At Cahulla Mrs. William Dunkerley is in charge of arts and crafts and Mrs. Alyce Wilson in charge of games.

Hand Quicker Than Eye, Woman Believes

The hand is quicker than the eye, Mrs. Verlin Sanfreed of Thunderbird ranch believes.

She told police that she placed her purse on a post office counter momentarily to glance over the mail she had just taken from a box and that when she turned to pick it up, it was gone.

Later, the purse was found, empty of its money.

Mrs. Potter In Hospital

Mrs. Mildred Potter, wife of Dr. James E. Potter, was reported in the Village as still confined at the Harrison Memorial Hospital, Bremerton, Washington suffering from injuries suffered in a traffic accident near that city Saturday.

Dr. Potter said yesterday that he had expected to hear that his wife was discharged from the hospital Sunday but the latest word indicates that she is still a patient there.

Injured in the same accident was Mrs. Jacob Bright friend of Mrs. Potter and who is the wife of a prominent Bremerton dentist. The automobile in which both women were riding figured in a head-on collision with another automobile on the outskirts of Bremerton last Saturday.

McCabe Elected Board President

Palm Springs Unified School district board met in annual session last week and organized for the new year with Hilton McCabe as president and Roland B. Vaile as clerk.

McCabe succeeds Vaile as president of the board and Vaile succeeds Dr. F. A. Purcell as clerk.

The meeting was held at the district office in Frances S. Stevens school.

Members of the school board are McCabe, Vaile, Dr. Purcell, Mrs. Frank Bennett and Conrad Nelson, the latter of Desert Hot Springs.

Marvin Fritz Marks Birthday at Party

Salutations were in order this week for Marvin Fritz, Village druggist who celebrated the anniversary of his birth Wednesday night.

Gathered at his home for cocktails to be followed later with a buffet dinner, all arranged by Mrs. Fritz were: Mr. and Mrs. Earl Neel, Mr. and Mrs. John Archibald, Judge and Mrs. Eugene E. Theriault and others.

Ban on Slots Now in Effect

There are no slot machines in Palm Springs—at least, none that anyone knows about.

Last Saturday noon, the new state law which makes possession of a one-armed bandit illegal, went into effect.

Prior to that, the law just said operation of a slot machine was illegal which meant that officers had to catch a machine in the act of paying off before an arrest could be made.

But that's all changed now. Even harboring one of the machines is now a crime.

Two Dwellings Started in Week

Two dwellings marked July building permits last week.

O. L. Dolton, 1021 Via Altamira, was issued a permit for a new home to cost \$12,500 and Edward A. Banning, 200 Las Palmas was issued a permit for a \$15,000 home. B. C. Vogel has both contracts.

M. H. Atkian was issued a permit for \$9800 additional work at the new building going up at Arenas and Palm Canyon drive. L. P. Scherer is the contractor.

George Barrett, 1451 Paseo de Anza, was issued an alteration permit for \$2,500. H. L. Hansen, contractor, and Allan Jones, 1066 Via Altamira, a permit for a sprinkler system. Sprinklers Inc., contractors, for \$350.

Rev. E. E. Lewis To Speak Sunday At Local Church

The Rev. E. E. Lewis will be the guest preacher at the Community Church this Sunday. He was for ten years a missionary in Ethiopia and for two years in the Anglo-Egyptian Sudan. At present, Mr. Lewis is director of the Sudan Interior Mission in the southern California area. Friends who heard him in the local pulpit last summer will welcome him back and will be happy for the privilege of hearing him in his sermon on "The Challenge of the Unfinished Task."

Sunday School will be held at the regular hour 9:45 a.m. with classes provided for children of different age groups. Mr. Lewis will teach the Adult Bible Class. Rev. and Mrs. Blackstone, with their three children left Forest Home yesterday for Yosemite where Mr. Blackstone will preach at Wawona and at the Glacier Point hotel this Sunday. The family will spend the following week, July 29 to August 5, in Balboa at the beach home of Mrs. Holly Visel, and then will return to Forest Home for the rest of August.

AUTO CLUB'S TRIP OF THE WEEK

Scenic KINGS CANYON

Of the numerous superlative scenic attractions of Kings Canyon National Park, the magnificent giant sequoias and primitive wilderness areas stand out as chief tourist interests. Moreover, motorists entering the national park region via the Generals Highway (top photo) will be doubly rewarded as the route traverses the equally impressive areas of famed Sequoia National Park.

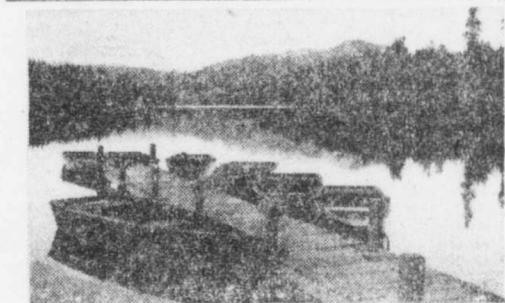

● In Sequoia, make the Giant Forest Administration building your base of operations as charts, maps and descriptive material are available here. Be sure to see the renowned General Sherman Tree, oldest and largest in the world and, if time allows, take the enjoyable two-mile walk along the Trail of the Sequoias which leads past many famous trees of the area. A visit to Moro Rock and Crystal Caves is also recommended...

● The General Grant Grove area in Kings Canyon is one of the most famous of all Sequoia groves. The famed General Grant Tree, conservatively estimated to be 3,500 years old, is located here...

● The giant Sequoias hereabouts are the largest and oldest living things. Trees approaching 300 feet in height and exceeding 30 feet in diameter may be found in numerous groves throughout the park, their great size and age being due to their resistance to destruction by fire, insects, decay...

● Other famed trees of the General Grant Grove area include the General Lee Tree, the Centennial Stump and the Seward Tree. A visit to nearby Panamint Point is highly recommended...

● Further inland lies the wilderness area where the landscape defies description. Huge domes along the canyon wall, more than 2,000 feet high, are

flanked by towering peaks and glacial lakes, alpine meadows and virgin forests are interspersed among spectacular granite gorges and lofty mountain peaks throughout the area. Out in the "back country" lies a vast region of mountains, forests, canyons and numerous lakes and streams such as those illustrated in center and lower photo. Trout fishing is considered good hereabouts.

Powerful Film On Gambling At The Village

Many Villagers will remember when Columbia Pictures' location company was encamped at the Doll House in Palm Springs last October for the filming of "711 Ocean Drive". The picture, which stars Edmund O'Brien and Joanne Dru, is heralded as one of the boldest ventures in motion picture history because of its attack on the highly organized gambling syndicates and the hoodlum empire. Because of the story's exposure of certain underworld leaders and their activities, producers were threatened with violence and reprisals if the picture were not stopped. Ignoring the threats production continued, but with the armed protection of police.

The location company moved from Palm Springs for completion of the picture. The picture was then dispatched to the scene of the local filming to cooperate with Los Angeles police who were permanently assigned to the company to protect the actors and crew. The stars of the picture and key personnel were accompanied by armed bodyguards wherever they went.

"711 Ocean Drive" screens today and tomorrow at the Village Palm Springs.

Benways Back For Brief Visit

Mr. and Mrs. Ben Benway, from Newport Beach, Cal., made a flying trip to Palm Springs to confer with Vivian Conkright, manager of their Palm Springs Beachcombers store. The Benways are enthusiasts over the warm reception, the desert has given their unique shop, and the Benways are valuable in their praise of the efficiency of Newspaper Advertising especially in the SUN.

Sidewalk Kibitzers Get Move On Order

Following complaints of women pedestrians that a group of teen-agers nightly congregated at Andrews road and Palm Canyon drive and make disparaging remarks, police moved in on the teen-agers Saturday night and moved them out.

"Brake it up" was the order—and "Keep it broken."

Motorists also complained that the youths, ranging from 16 to 20 in age, had tossed pebbles at them as they drove by.

ASSIGNMENT

(A Short Story)
By RICHARD HILL WILKINSON

WHEN CONSTABLE JIM GARRISON of the C.R.N.M.P. received orders to bring in Crowfoot Hallam, the halfbreed renegade, he packed enough supplies to last a fortnight. Crowfoot was a terror in the district. He had three murders to his credit, numberless lootings and a prison record. He was desperate, dangerous.

With Constable Jim it wasn't a question of whether or not he could track down Crowfoot, but how long it would take.

He found the place a week later—burned to the ground and the bones of its owner lying among the ruins. Jim pitched camp and spent the evening making his plans. There was no way of telling which way Crowfoot Hallam had gone; snow had covered all traces. But one thing appeared certain: Crow-

dog left, himself half starved, he came upon a lone prospector. The prospector took him in, fed him and gave him news. Crowfoot Hallam had passed that way. He had looted the prospector's cabin but had failed to find the ore which was hidden in a crevice of the chimney. The prospector guessed he was lucky because he was off hunting when Crowfoot made his call.

WITH THE SCANT SUPPLY of provisions that the prospector could let him have, Jim set off the next morning with only a pack on his back, his rifle and service revolver. Fifty miles north of the cabin he picked up some tracks that he guessed were Crowfoot's. But he lost them at noon and wasted the whole afternoon trying to find them again. Two days later, his supplies gone, his cheeks frost bitten, he came to an Eskimo village. The Eskimos were friendly, but they couldn't give him any news of Crowfoot. Jim's spirits sank. That meant he'd have to return to the prospector's cabin and start over again.

He kept going steadily for a week. Then he came within sight of another Eskimo village. Instead of entering it boldly, he waited until darkness came, then walked in stealthily. From a skin tent came the sound of voices. He cautiously opened the flap, and there sat Crowfoot Hallam holding a confab with the village's head man. There wasn't a chance. Crowfoot Hallam submitted without a struggle.

Instead of entering it boldly, he waited until darkness came, then walked in stealthily.

foot was heading steadily north, probably planning to winter with some of the half-wild tribes of Indians on the Upper Dogmaque.

Jim set out at dawn. It was bitterly cold—almost 40 below he judged. Moreover, there was promise of more snow.

That day he made 15 miles, camped in the lee of an overhanging cliff and prepared to wait the storm out. He had a longer wait than he expected. The snow lasted five days and then it came off cold again. Jim was a little worried because his supplies were already low and so was the supply of frozen fish he'd brought along for the dogs.

Three days later he shot two of the dogs because he didn't have enough fish to keep all six alive. He hadn't sighted any game, which he had expected to do, and as far as he knew there were no habitations where he could replenish his supplies within miles. Least of all did he find any trace of Crowfoot. It remained cold and Jim realized his predicament was desperate.

Three days later, with only one

MEDITERRANEAN CRUISING! You should see the colorful sales bulletins we've been receiving from our various companies re-cruises planned for next winter! The brand new American liner—

INDEPENDENCE—will make its maiden voyage next February... a 53 day cruise visiting twenty-two fascinating ports! This new ship will be entirely air-conditioned—generous deck spaces... two swimming pools! Plus all the excitement, color and glamour that he claims a new steamer on her maiden voyage!

THE NORWEGIAN "OSLOFJORD" also has scheduled a mid-winter cruise in February. Among the fascinating features of this Viking ship—the Sports Deck, Sun Terrace, and Lido Deck, with outdoor pool, combine to form a wonderful recreation center! And Smorgasbord and buffet lunches are served on the Terrace! For this leisurely cruise, the Oslofjord will carry only half the number of passengers she is capable of carrying—among the ports visited—six days will be spent in Egypt—the height of the winter season—visits to the shrines of the Holy Land from the port of Haifa—inland trips from Beirut to Damascus!

THE BRITANNIC, famous liner of the Cunard Steam-Ship Company, will cruise in and around the Mediterranean area in February and March, terminating at Cherbourg or Southampton in time for a springtime tour of the Continent, and the enjoyment of
